What's New for Mother's Day

Luscious Pearl Jewelry - Adored By Moms Of All Ages

Pearls have long been a traditional symbol of love and happiness for those who own them. So it's no wonder that pearl jewelry is the one gift of love that is sure to capture the heart of any mother, grandmother, or mother-to-be this year.

Mothers of all ages adore these lustrous gems not only for their beauty, but because pearls are always in vogue, add elegance and style to any outfit, and are available in dozens of fashionable types of jewelry.

Today's exciting pearl jewelry offers classic round white Akoya pearls, beautiful fresh-water pastel pearls in a rainbow of delicate colors, richly hued Tahitian pearls in fascinating dark shades including purple, green, peacock blue, and bronze, plus bright blue Eyril abalone mabe pearls from New Zealand.

The newest designs are mixing all kinds of pearls in dramatic pieces of jewelry that combine different fancy pearl shapes such as petals, coins, potatoes, buttons, ovals, and other baroque forms.

With so much beauty to choose from, you're sure to find the perfect piece of pearl jewelry to please the special lady in your life on Mother's Day this year.
